Student at Imperial College London with a strong interest in technology, cybersecurity and cloud computing. Completed several internships and training programmes in the cybersecurity field. Currently, developing my knowledge of AWS cloud services through AWS Cloud Quest: Cloud Practitioner. International profile, fluent in French and English. Seeking a **Commercial Sales Internship in Cloud & Cybersecurity** starting from **June 2027**.

EDUCATION

Imperial College Business School London — **London, UK | Sept 2026 – Jan 2028**
MSc in Management (MiM), Specialisation in Management, Strategy and Big Data, AI & Machine Learning.
Global Immersion - AI & Business Transformation, Singapore (upcoming): selected for a one-week immersion in Singapore, a leading global hub for technology and AI, involving visits to AI-focused firms and working as part of a team to analyse their operations.

ESCP Business School — **London, Madrid, Berlin | Sept 2023 – Jul 2026**
Bachelor in Management (BSc), Years: London (Y1), Madrid (Y2), Berlin (Y3). Core modules in Finance, Economics, Law, Mathematics, Accounting. Bachelor's Thesis: "Data: the new gold or the new Achilles' heel?" (focus on data digital risks and opportunities).

PROFESSIONAL EXPERIENCE

Exclusive Networks (cyber security) — **Madrid, Spain | May 2025 – Jul 2025**
Sales & HR Assistant – Spanish Team

- Used Oracle and NetSuite CRM/ERP tools to manage email marketing campaigns, preparing campaign content, defining targeted customers, and scheduling sending dates several months in advance.
- Managed LinkedIn content for Exclusive Networks Spain, coordinating posts (3-4 per week). Supported outreach campaign for "Fiesta del Pueblo", an annual partner event celebrating the business relationship between Exclusive Networks and its vendors.
- Managed event merchandising and branded gifts for customer events (up to 100 attendees), coordinating their distribution.
- Visited vendors (Netskope, One Identity, Fortinet) and attended customer events with the Sales Team and vendor representatives to reinforce partner relationships and gain insights into joint sales activities.

Orange Cyberdefense (cyber security) — **London, UK | May 2024 – June 2024**
Sales & HR Assistant – UK Team

- Assisted the Office Manager in setting up and operating offices and supported the Marketing Team in organizing off-site events involving clients and partners to strengthen engagement and foster business relationships.
- Visited partners (Zscaler, Netskope) and attended to customer events with Sales Team, to reinforce relationship and gain insights into the business development activities.
- Attended events like Infosecurity 2024, hearing from top cybersecurity experts and visiting OCD's partners stands such as Palo Alto Networks, Checkpoint, Fortinet, Microsoft, Netskope, F5 or Proofpoint. And editing a video of highlights from meetings recorded throughout the event.

Netskope (cyber security) — **London, UK | Oct 2022**
Sales & HR Assistant – UK Team

- Maximized attendance at an event held in Israel: analyzed and filtered an Excel database to identify 200 unregistered prospects, then conducted targeted cold calls, reaching approximately 60 prospects (30%), engaging in meaningful sales conversations and securing 32 event registrations (16%).
- Prepared and presented to the RH Team a presentation comparing social rights and benefits for employees worldwide.

ACHIEVEMENTS

Certificate – AWS Cloud Quest: Cloud Practitioner — **(in progress) April 2026 – now**

- Developing fundamental knowledge of AWS cloud services and infrastructure, including AWS S3 cloud storage, AWS EC2 virtual servers, and AWS Global Infrastructure. Understanding how AWS supports scalability, high availability, fault tolerance and performance optimisation. Gaining hands-on experience with AWS Management Console, including navigating the dashboard, accessing S3 buckets or S3 Glacier, configuring object settings, such as renaming or enabling static website hosting.

Certificate – Google Cybersecurity Certificate — **June 2025 – Aug 2025**

- Understanding of cybersecurity threats and risks, their impacts on organisations and how to protect networks, people and data. Acquiring practical knowledge of Python, SIEM tools and SQL for basic security monitoring and analysis.

ADDITIONAL SKILLS

Technical Skills : CRM Tools (Salesforce, Oracle NetSuite) ; MS Office (PowerPoint, Excel, Word); PIX certification
Languages: French (native), English (Fluent - C1), Spanish (B1).

EXTRA-CURRICULAR & INTERESTS

- Horse riding (12 years at competition level); selected to compete in the French Jumping Championship in Team (2017–2019).
